* The mean population for the year is obtained as follows;—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two.

VI.—METEOROLOGY.

No. 79.—*Notes on the Climate of Western Australia for year ended 31st December*, 1910.

(*By the Commonwealth Meteorological Divisional Officer for Western Australia.*)

In West Australia seasons are clearly defined, both as regards temperature and rainfall, January corresponding with the English July; thus our *Summer* months would consist of December, January, and February; *Autumn*, March, April, and May; *Winter*, June, July, and August; and *Spring*, September, October, and November; January being our mid-summer; and July our mid-winter; whilst March would commence Autumn, and September our Spring.

The annexed table shows the mean temperature, evaporation, and rainfall for several years at Perth for each of the seasons:—The temperature records extend over 14 years; the evaporation 12, and the rainfall 35 years.

a. The gross Public Debt on the 30th June was, as shown in the eighth column, £23,287,453 7s. 3d. In addition to this amount the State was indebted to the Government Savings Bank, etc., for £164,226 10s. 3d. invested in the purchase of Bonds under the Agricultural Lands Purchase Act, and £1,024,100 in Mortgage Bonds under the Agricultural Bank Act. Unlike other Loan Issues made by the State, the Interest on these Bonds is not charged to Revenue, nor will the Principal be so charged should the funds accumulating under the respective Acts suffice for the purpose of Redemption. *b.* Premiums on Conversions. *c.* Discounts on Conversions. *d.* Included in Local Inscribed Stock. *e.* Against these Authorisations the following flotations are earmarked :—Local Inscribed Stock, £2,625,900 Treasury Bills, £717,000,—Total, £3,342,900.

a Owing to the abandonment by the Commonwealth Government of the collection of the Returns of Interstate Trade during the Year, it has not been possible to separate Australian from Oversea Produce for each port. *b* £2,813,603, being the Total Value of Exports from all Western Australian Ports to other Commonwealth Ports, has been included under *Fremantle and Perth*, as, owing to the system of Export vouchers having been suspended by the Commonwealth Customs Department for inter-State traffic, there is no means of distinguishing the individual ports of shipment; the value of the Ships' Stores, amounting to £146,915, has been similarly included with the above.

No. 10.—*GENERAL IMPORTS into the State of Western Australia during the Year 1910.*

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth "Customs Tariff Act, 1902" (Edwd. VII., No. 14).

NOTE A.—On all British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

Do. B.—The "Quantities" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

NOTE

The Areas (rectangular) adopted are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed, they are units that can be readily subdivided & re-grouped at any future time into new districts & sub-districts without impairing their use for comparative purposes.

The figures printed next to the Red letters in the Statistical Areas on the Map represent the acreages under the various Cereal Crops. The figures with decimals, after these, represent the Average Yield per acre in bushels for grain, and in tons for hay. The Red circles represent, in bushels, the total wheat yields in the various areas.

No 5.—*Number of Holdings from which Returns were received for the Season 1910-1911, arranged in Acreage Series, and Total Area in acres, distinguishing Statistical Districts, Sub-Districts, and Areas of Western Australia.*

NOTES.—1. *The rectangular areas* adopted, which are shown on the map attached to this part of the *Statistical Register*, are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed they are units that can be readily sub-divided and re-grouped at any future time into new districts and sub-districts, without impairing their use for comparative purposes. Except where the areas are broken by the sea coast or other causes, the area numbers here printed in black type represent areas of 8,437½ square miles each, whilst those printed in ordinary type represent areas of 937½ square miles each, and the sub-area numbers marked *a*, *b*, *c*, or *d*, as the case may be, represent areas of 234⅜ square miles each. 2. Areas in parentheses and marked with an asterisk (*), are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are entirely unoccupied. Areas marked (†) are portions of areas only.

(†) The reason why Returns relative to certain alienated and leased land are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain *entirely unimproved or unstocked*, and also in a lesser degree in the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

No. 12A.—*Acreage and Production of Grain and Pulse, in each Statistical District, Sub-District, and Area of Western Australia, for the Season ended the 28th February, 1911.*

NOTES.—1.—*The (rectangular) areas* adopted, which are shown on the map attached to these Returns, are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed, they are units that can be readily sub-divided and re-grouped at any future time into new districts and sub-districts, without impairing their use for comparative purposes. Except where the areas are broken by the sea coast or other causes, the area numbers here printed in black type represent areas of 8,437½ square miles each, while those printed in ordinary type represent areas of 937½ square miles each, and the Sub-Areas marked *a*, *b*, *c*, or *d*, as the case may be, represent areas of 234⅜ square miles each. 2.—Areas in parentheses, and marked with an asterisk (*), are those for which the returns if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are entirely unoccupied. Areas marked (†) are portions of areas only. 3.—For average yields for Districts and Sub-Districts, *see* Table No. 1.

* If importation took place during the year it was classified under some general heading, and not particularly specified.

NOTE.—This table has been compiled with the special object of showing the values of the importations into Western Australia during the last 10 years of such products of the soil and of live stock as could have been produced within the State, but are at present introduced to supply the deficiency in local production. It serves as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

II.—WATER CONSERVATION.

No. 23.—*Principal Works under control of the Goldfields Water Supply Administration to 31st December, 1910.*

(Information supplied by Goldfields Water Supply Department.)

Source of Supply and outline of Headworks.	Main Works, Description.	Towns and Districts Supplied.				
		Name of Town or District.	Supply Main.	Length of Distributing and Reticulation Mains.	Service Reservoirs.	Remarks.
				Miles.		
Source of supply is the Helena River, Darling Ranges, where at about 18 miles in a direct line from Perth, an impounding reservoir having a capacity of 4,600,000,000 gallons has been formed by the construction of a straight line concrete overflow weir. Height of wall from bed of river is 100 feet. Height of wall from lowest part of foundations is 190 feet. Length of wall is 755 feet. Height of crest of wall above zero on Fremantle Tide Gauge is 420·16 feet. Catchment area is 364,000 acres. Annual rainfall recorded on the Catchment varies from an average of 41·05 inches in the vicinity of the Reservoir to 17·39 inches near the source of the river.	Helena Reservoir Other Reservoirs Pumping machinery, including buildings, tanks, sidings, etc. Main conduit is of Locking-Bar. Steel pipe of 30 inches internal diameter, 351½ miles long. The water is forced through this main to a net height of 1,290 feet in steps by a series of eight pumping installations placed at intervals along the line of conduit. No. 1 being at the Reservoir. * It will be noticed that a large falling off has taken place this year in the number of charges for "Cattle Killing" and "Unlawful Possession." This is due to the instruction issued to the Police that ringleaders only are to be arrested.

No. 27.—*Number of Convictions of Aborigines in Magistrates' Courts during 1910.*

(*N.B.—In case of multiple charges at one time, only the most serious offence has been tabulated.*)

* Children under the age of seven years are not criminally responsible; those who have attained that age, but are still under fourteen, are only criminally responsible if it is proved that at the time of the offence they were capable of knowing that they ought to have acted otherwise. In the above table, charges have been included concerning children from seven and over fourteen. Neglected children, formerly dealt with in this table, are now tabulated separately, *see* Tables Nos. 35 and 36.

* Exclusive of cost of Administration. † Up to and including 1895 the numbers given are those of the "Assisted" or State-aided Denominational Schools. By "The Assisted Schools Abolition Act, 1895," all grants-in-aid to these were abolished from the 31st December of that year. Thereafter these schools ranked as "Private" schools, as distinguished from "Government" schools. The figures for 1896 and onwards include all private schools, secondary as well as primary, though one of the former (the Perth High School) is subsidised by the State. The average attendance, and, consequently, the percentage of attendance to enrolment at these schools from 1896 is partly estimated, some of the returns forwarded being obviously incorrect. ‡ Not ascertained previous to 1897. § Including schools closed during the year. *a* From and including 1897 the percentage of attendance to enrolment has been calculated on the basis of "average attendance" to "average enrolment." *b* Including one undenominational school, particulars of which are not included in next three columns. *c* Year ended 30th June.

Notes.—*Denominations.*—When two or more Religious Denominations authorise the same Instructor or Instructors to give religious instruction, the children who attend such are entered in Records and Returns as if each such denomination formed a separate and distinct class.

* For convenience sake, the heads of the Methodist, Presbyterian, Congregational, and Baptist Churches have agreed that clergymen belonging to any one of these denominations may be considered as the authorised delegate of the other three. Therefore, the attendance by a clergyman is credited to the denomination whose minister imparts instruction. † Special religious instruction has been given in 274 distinct schools.

B.—General Religious Instruction.

This instruction, which excludes dogmatic or polemical theology, is given in all schools. The number of children withdrawn from it, in accordance with the written request of parents, amounted to 1,759, made up as follows:—Roman Catholics, 1,527; Hebrew, 114; Seventh Day Adventist, 22; No Denomination, 29; Church of England, 34; Methodist, 8; Presbyterian, 7; Protestant, 1; Lutheran, 1; Church of Christ, 1; Greek, 2; Plymouth Brethren, 1; Mormons, 2; Freethinkers, 5; Mohammedan, 1; Christadelphians, 3; Buddhist, 1.

* Up to 6th April, 1903, the Society was known as "The Mueller Botanic Society." On this date the scope of work embraced was widened to include all branches of Natural History, and the title was changed to "The West Australian Natural History Society." In 1909 the title was changed to "The Natural History and Science Society of Western Australia," and it is now open to all branches of scientific research. Meetings of members are held monthly in the Society's Rooms at the Department of Agriculture, Perth, when papers are read on the different subjects embraced in the Society's curriculum.

*Prior to 1885, readings were not taken at 9 a.m. and 3 p.m., and the noon reading has been entered as the Monthly Mean. Since that date, the mean is taken from the 9 a.m. and 3 p.m. readings. † The Thermometers were moved in August, 1885, to their present position in the Botanic Gardens, and as they have apparently given a slightly lower record since then, the means have been taken from 1886 only.

a From the first settlement of the colony up to the year 1837 there were no Blue Books issued, and the figures relating to arrivals and departures, shipping, imports and exports were taken either from the reports of the Harbour Master at Fremantle or from the Perth newspapers of that period. From 1838 to 1859, inclusive, the Blue Books give only the excess of arrivals over departures, or *vice versa*.
b No records obtainable. *c* The figures for 1893 and subsequent years are for the year ended 30th June. *d* Exclusive of figures relating to Unclaimed Depositors' Fund, which for previous years have been included, but including figures relative to the Schools Savings Bank, which provision did not previously exist. *e* Departmental figures.

* Records of Outward Shipping for several years are not available, and for such years, therefore, the same figures are shown as for Inward Shipping. Where, occasionally, the correct Outward figures have been found recorded, they naturally clash with the system adopted for the other years. † Total Gold Export is included in Table No. 3, "Gold Production," pages 6 and 7, which comprises gold received at the Perth Mint. *a* The exports up to the year 1834 consisted only of supplies to shipping, of which no record was kept. *b* No records obtainable.

No. 5.—*Export of certain Articles, the Produce of the State.*
